DIAMOND XL270 DELUXE

SPARKLING FROM ALL ANGLES

WELCOME TO DOREMA

Established since 1987, for more than 35 years, Dorema have been specialising in the design and manufacturing of quality caravan and motorhome awnings.

Our dedication to the future is reflected in our constant pursuit of the latest technologies, ensuring that our products not only meet but exceed the evolving needs of today's campers and those of tomorrow. Each awning is thoughtfully designed to enhance your outdoor experience, adding space, and creating new dimensions of comfort and joy in camping.

The Dorema collection offers something for everyone, with a wide range of styles to suit all tastes. Our extensive network of nationwide dealers is ready to assist you in finding the perfect awning for your needs. And our knowledgeable UK team is always on hand to provide expert guidance, ensuring you make the right choice for your next adventure.

"Your holiday starts here!" With Dorema awnings, crafted from world leading TenCate and Sattler outdoor fabrics and equipped with high-quality YKK and Optilon zippers, you're assured years of reliable protection and effortless use.

We invite you to experience the exceptional quality and innovation that define Dorema—where your journey begins with the perfect awning.

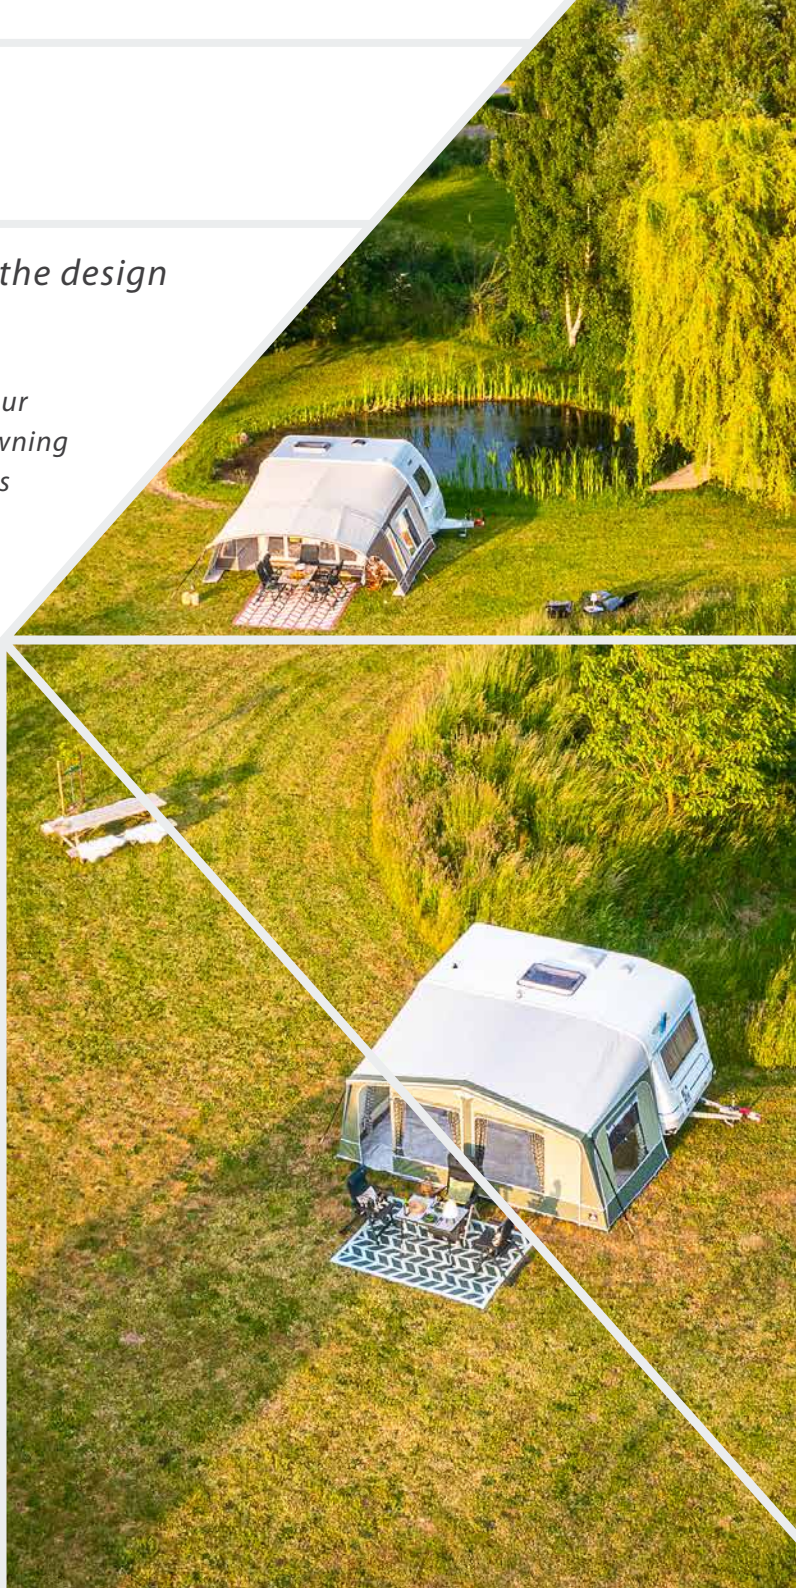

Our awnings and canopies are developed and produced in our own state of the art production facilities in Europe.

We stand for quality and service. Dorema uses the very latest technologies to ensure that our products are trouble free and that you, the customer, are able to have many happy holidays.

products

DETAILS

QUALITY IS IN THE DETAIL

Dorema awnings are manufactured using, world leading, TenCate outdoor fabrics and Sattler Acrylic which provide optimal all round protection for years of enjoyment.

Doréma only uses the high quality zippers of YKK and Optilon to ensure ease of use for years to come.

SIOEN is the World market leader in coated technical textiles.

Standard with all Dorema

awnings: Draught Skirt / Wheel Arch Cover / Ladder Straps / Heavy Duty Nylon Pegs / Canvas & Frame Bags.

SAFE LOCK SYSTEM

SafeLock System fitted as standard to attach the optional extra SafeLock System Kit.

EASYGRIP

EasyGrip system for rapid locking and ease of frame tensioning.

QUICKLOCK PADS INCLUDED

EASY AIR FRAME

Easy Air Frame system.

HAND PUMP INCLUDED

Caravans

Measure your caravan through the awning rail from ground to ground (A-B-C) as shown in the diagram below. Then check your measurement against the chart. This will provide you with the Dorema awning size required.

Seasonal Caravanners please note:

Dorema strongly recommend that anyone seasonally siting their awning should measure the caravan on the seasonal pitch prior to ordering their awning, (for example, a pitch with decking could alter the awning size required).

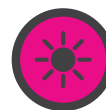

SIZE	A-MEASUREMENT CM

EMBRACE NEW ADVENTURES

DOREMA PORCH AWNINGS

When producing our porch awnings, we incorporate the same quality materials that can be found on our collection of full awnings. The demands of today's and tomorrow's campers are at the forefront of our innovation and design process, while maintaining our passion to enhance space and create an extra dimension to the joy of camping.

'Which porch awning will fit my caravan?'

*This is a common question that we are regularly asked. Our porch awnings are designed to fit along the straight horizontal section of the awning rail on your caravan (**measurement A**). The measurement from the ground to the awning rail, at the top of your caravan, should be 235cm to 250cm (**measurement B**).*

We provide the floor size measurement and the roof width measurement for all of our porch awnings. These measurements will determine whether the sides of the porch awning are sloping or 90 degrees vertical. There are other factors which you may want to consider, for example, the location of vents, lockers, windows, etc. With this information you will be able to make the right choice on the porch awning that best suits your requirements.

QUATTRO 380

A scenic landscape of misty mountains at sunrise or sunset. The sky is a warm orange and yellow, with soft light filtering through the clouds. The mountains are dark and silhouetted, with mist or low clouds filling the valleys. On the right side of the image, there are white geometric lines: a diagonal line from the top right corner, a horizontal line, and a vertical line, creating a grid-like structure.

***THOUGH YOU ARE FAR FROM HOME
YOU ALWAYS FEEL RIGHT AT HOME***

AIR AWNING TECHNOLOGY HAS PROVEN TO BE A HUGE POPULAR CHOICE WITH TODAY'S CAMPERS.

We have merged our renowned quality with advanced air technology to develop a comprehensive range of robust and long-lasting inflatable awnings. Our designs seamlessly blend classic elements with contemporary aesthetics.

Our EAF (Easy Air Frame) System features a single inflation point and multiple deflation valves, ensuring our air frames are straightforward and quick to set up.

Once inflated, the isolation valves offer stability, dependability, and effortless upkeep.

Our innovative designs maximize space, adding a new level of comfort and enjoyment to modern camping experiences.

DAYTONA AIR

Double your living space with ease

The pioneer of traditional shaped full air awnings / Easy Air Frame System (EAF) / Single Inflation Point / Isolation Valves

LUXOR AIR 280

LATEST UNIQUE MODERN DESIGN FULL AIR AWNING 280CM DEEP

The Luxor Air 280 is an exciting addition to our superb collection of full air awnings. Specially developed, this luxurious design is enhanced by the generous space that the 280cm depth provides.

Incorporating our Easy Air Frame system, the Luxor Air 280 is rapidly inflated from a single external inflation point. Each air tube section can then be isolated for easy maintenance and to preserve the air pressure within each individual section of the main air frame.

The unique shape allows maximum light to enter the awning adding an extra dimension to your comfort and to the joy of seasonal camping.

STARLON CARPET, FRAMES & ACCESSORIES

STARLON®
AWNING CARPET

STARLON® AWNING CARPET

Heavy Duty , strong & durable

Dorema has designed this convenient carpet to perfectly complement your new awning.

This durable carpet is ideal for both casual weekend campers and dedicated seasonal users. Its soft texture provides comfort, especially for children playing barefoot.

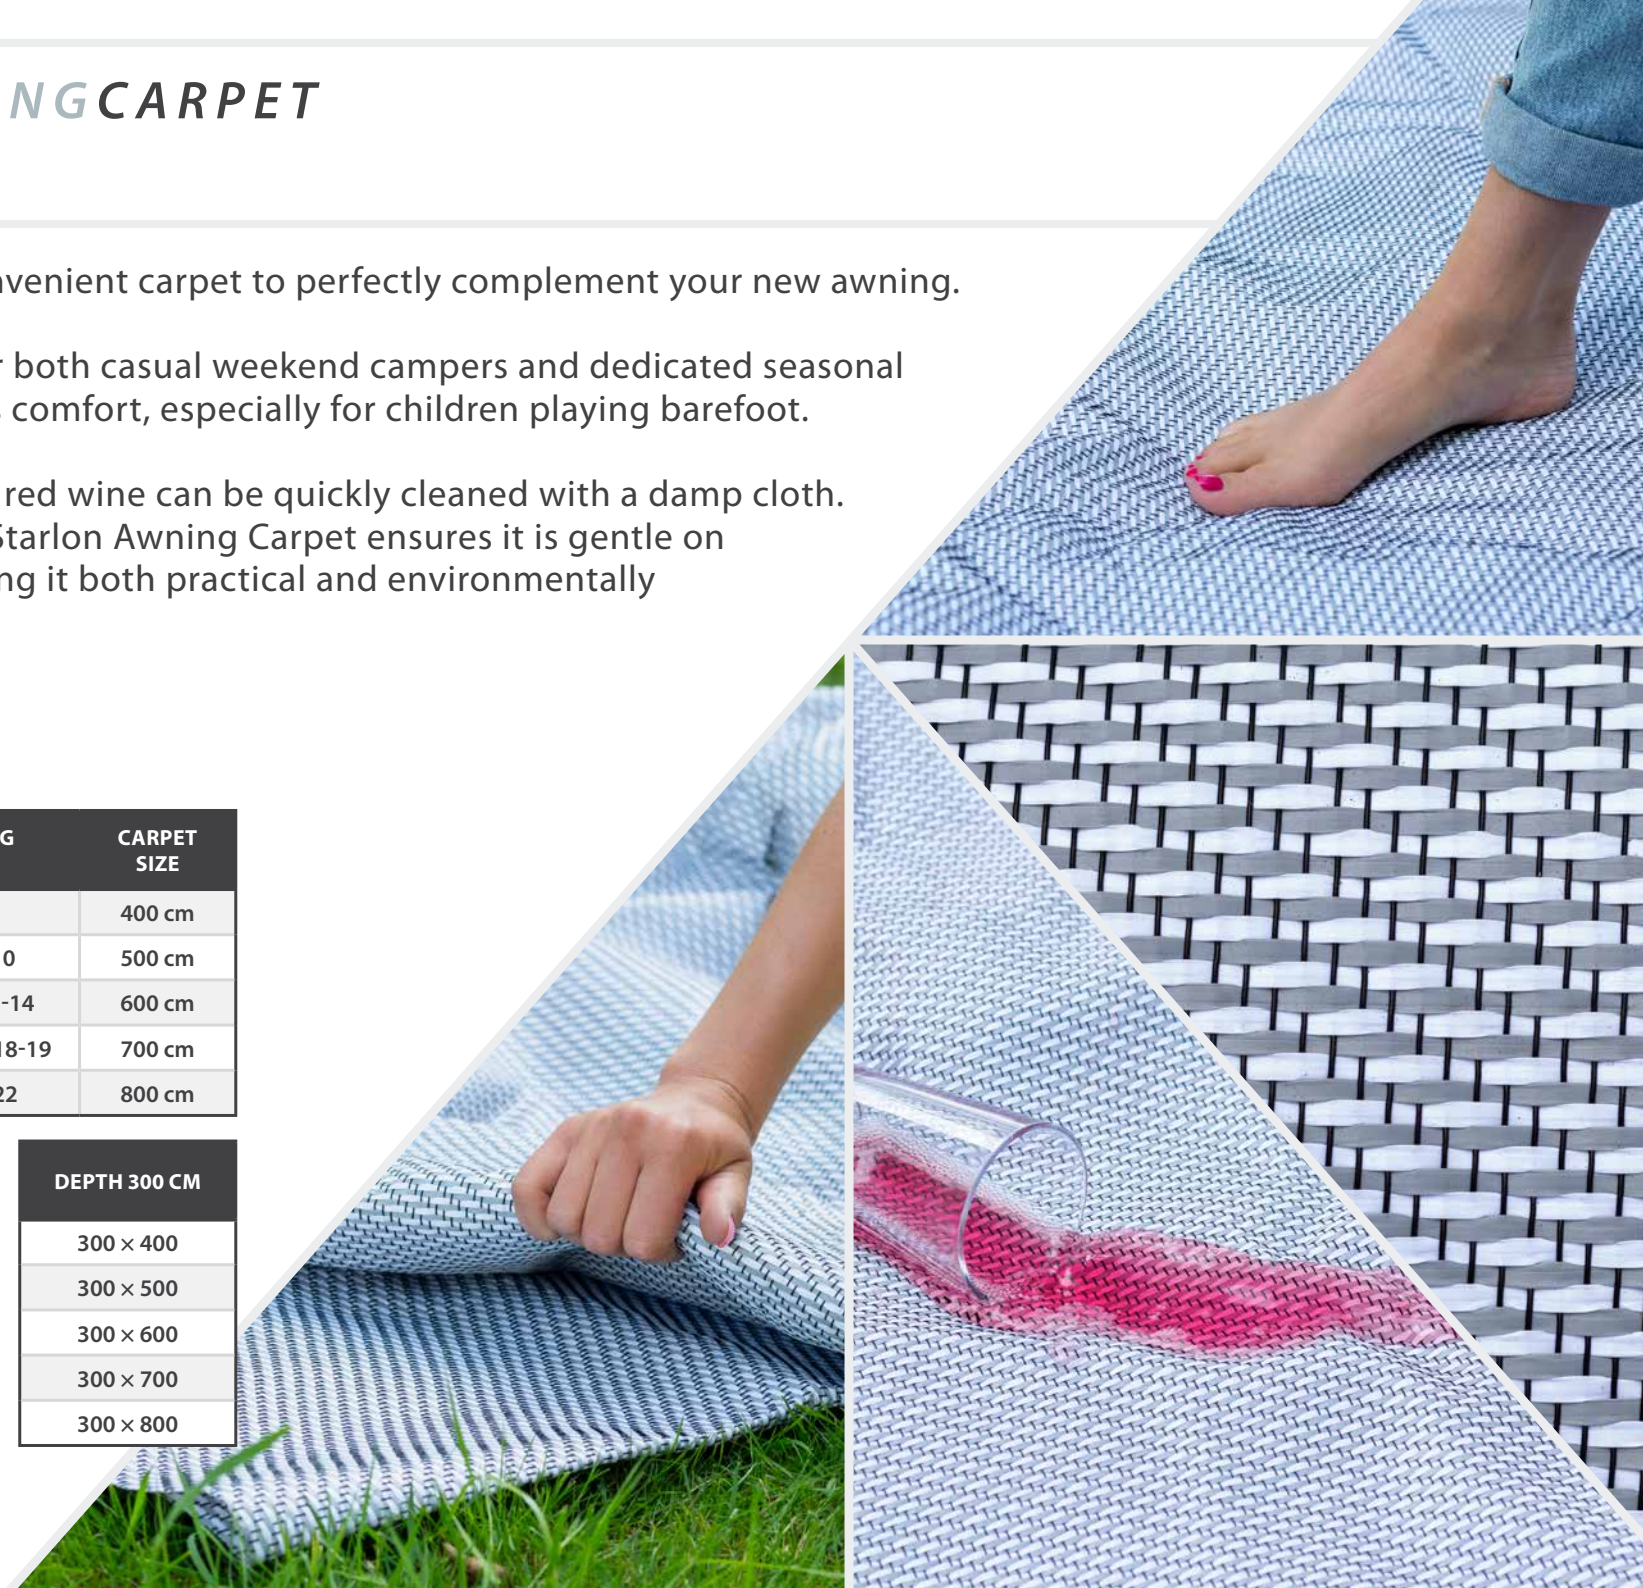

Accidental spills like coffee or red wine can be quickly cleaned with a damp cloth. The breathable weave of the Starlon Awning Carpet ensures it is gentle on the ground underneath, making it both practical and environmentally considerate.

UNIVERSAL INNER TENT

STORMPOLE

For extra stability. Available in Steel, Aluminium and FibreTech Plus.

SAFELOCK SYSTEM KIT (SET OF 2)

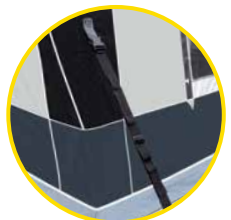

Fits all current Dorema poled, full awnings & porch awnings

Now available for previous models for universal use. SafeLock System Kit not included.

TRIPLE SAFELOCK SYSTEM KIT (SET OF 3)

All Dorema Full Air awnings are equipped with SafeLock System buckles to attach these straps. Consisting of 3 x straps, 3 x high tension springs and 3 x large steel pegs, the Triple SafeLock System Kit is available as a must have optional extra.

FRAMES

1 STEEL

The Steel frames offer great stability and are easy to assemble with the EasyGrip clamp system. When you have a seasonal pitch, we highly recommend to use our 28 mm steel frames for extra stability and a carefree stay.

2 ALU QUICK SYSTEM

ALU QUICK SYSTEM: The ultra light aluminium frame consists of only three major sections and three roof support poles. Each section contains a number of poles which are telescopic or are connected together with a spring system. All angle joints are made of steel.

- **Lightweight** (about half the weight of steel).
- **No rust**

3 FIBRETECH PLUS

The very latest in fibreglass frame technology, manufactured from 30 mm and 25,5 mm diameter tubing. This is a top quality woven fibreglass tube that is incredibly strong, easy to handle and simple to erect. The unique construction of the FibreTech Plus frame ensures a degree of flexibility with maximum strength at all times.

- **Ultra light and flexible**
- **Easy to erect**
- **Very stable**
- **Long life**
- **New EasyGrip clamp system**

4 EASY AIR FRAME SYSTEM (EAF)

The Easy Air Frame System consists of seamless TPU inner tubes that are high frequency welded on the ends. The inner tubes are protected within reinforced twin walled outer jackets. Inflation is achieved by an external single valve system that incorporates isolation valves which isolate each section of the main air frame. This also helps to preserve the air pressure within each inner tube. For rapid deflation, simply open the isolation valves and release the the air pressure from external multi-valves which are located at the front of the awning. The Easy Air Frame is only inflated to 8-10 psi (max.) and makes the pitching of the air awning fast and simple.
