BRUNNER
OUTDOOR IN MOTION

OUTDOOR | CAMPING | ON THE ROAD

A NEW SEASON.
A NEW CHAPTER.
THE NEW WE.

2022

For more than 60 years we have been helping you to enjoy the "outdoors" and the "on the road" - we design, develop and manufacture functional equipment for many countries around the world.

With a Brunner product you are always at the cutting edge. Because we are already thinking about tomorrow: All new developments contain the most advanced technology, with which you are optimally equipped for the future - for example, when it comes to comfort and safety.

To ensure good value for money and to keep bringing new innovations to the market, Brunner is increasingly relocating product development and production to European countries.
In this context, sustainability is one of the central elements of our innovative thinking. The most important thing for us is to combine beauty and functionality with a long product life so that it can accompany you for many years and on many outdoor adventures. For this reason, we work with high-quality materials and offer an extended warranty on various products.

All this is performed in our partner shops in more than 30 countries. From New Zealand to Sweden, from Greece to Portugal, where experienced staff will be happy to help you find the most suitable product.
We invite you to enter a world that motivates and inspires us every day and where we can focus on what is really important - the great life "Outdoors" and "On the road".

Your Brunner Team

MIX & MATCH

Matching colour and shape

Make yourself comfortable in your outdoor environment and give it a touch of luxury. Numerous products from the Brunner catalogue, coordinated according to colour and form, enable individual design without having to forego the harmonious interplay of wonderfully harmonized products from different categories. Create your own personal ambience - just like at home!

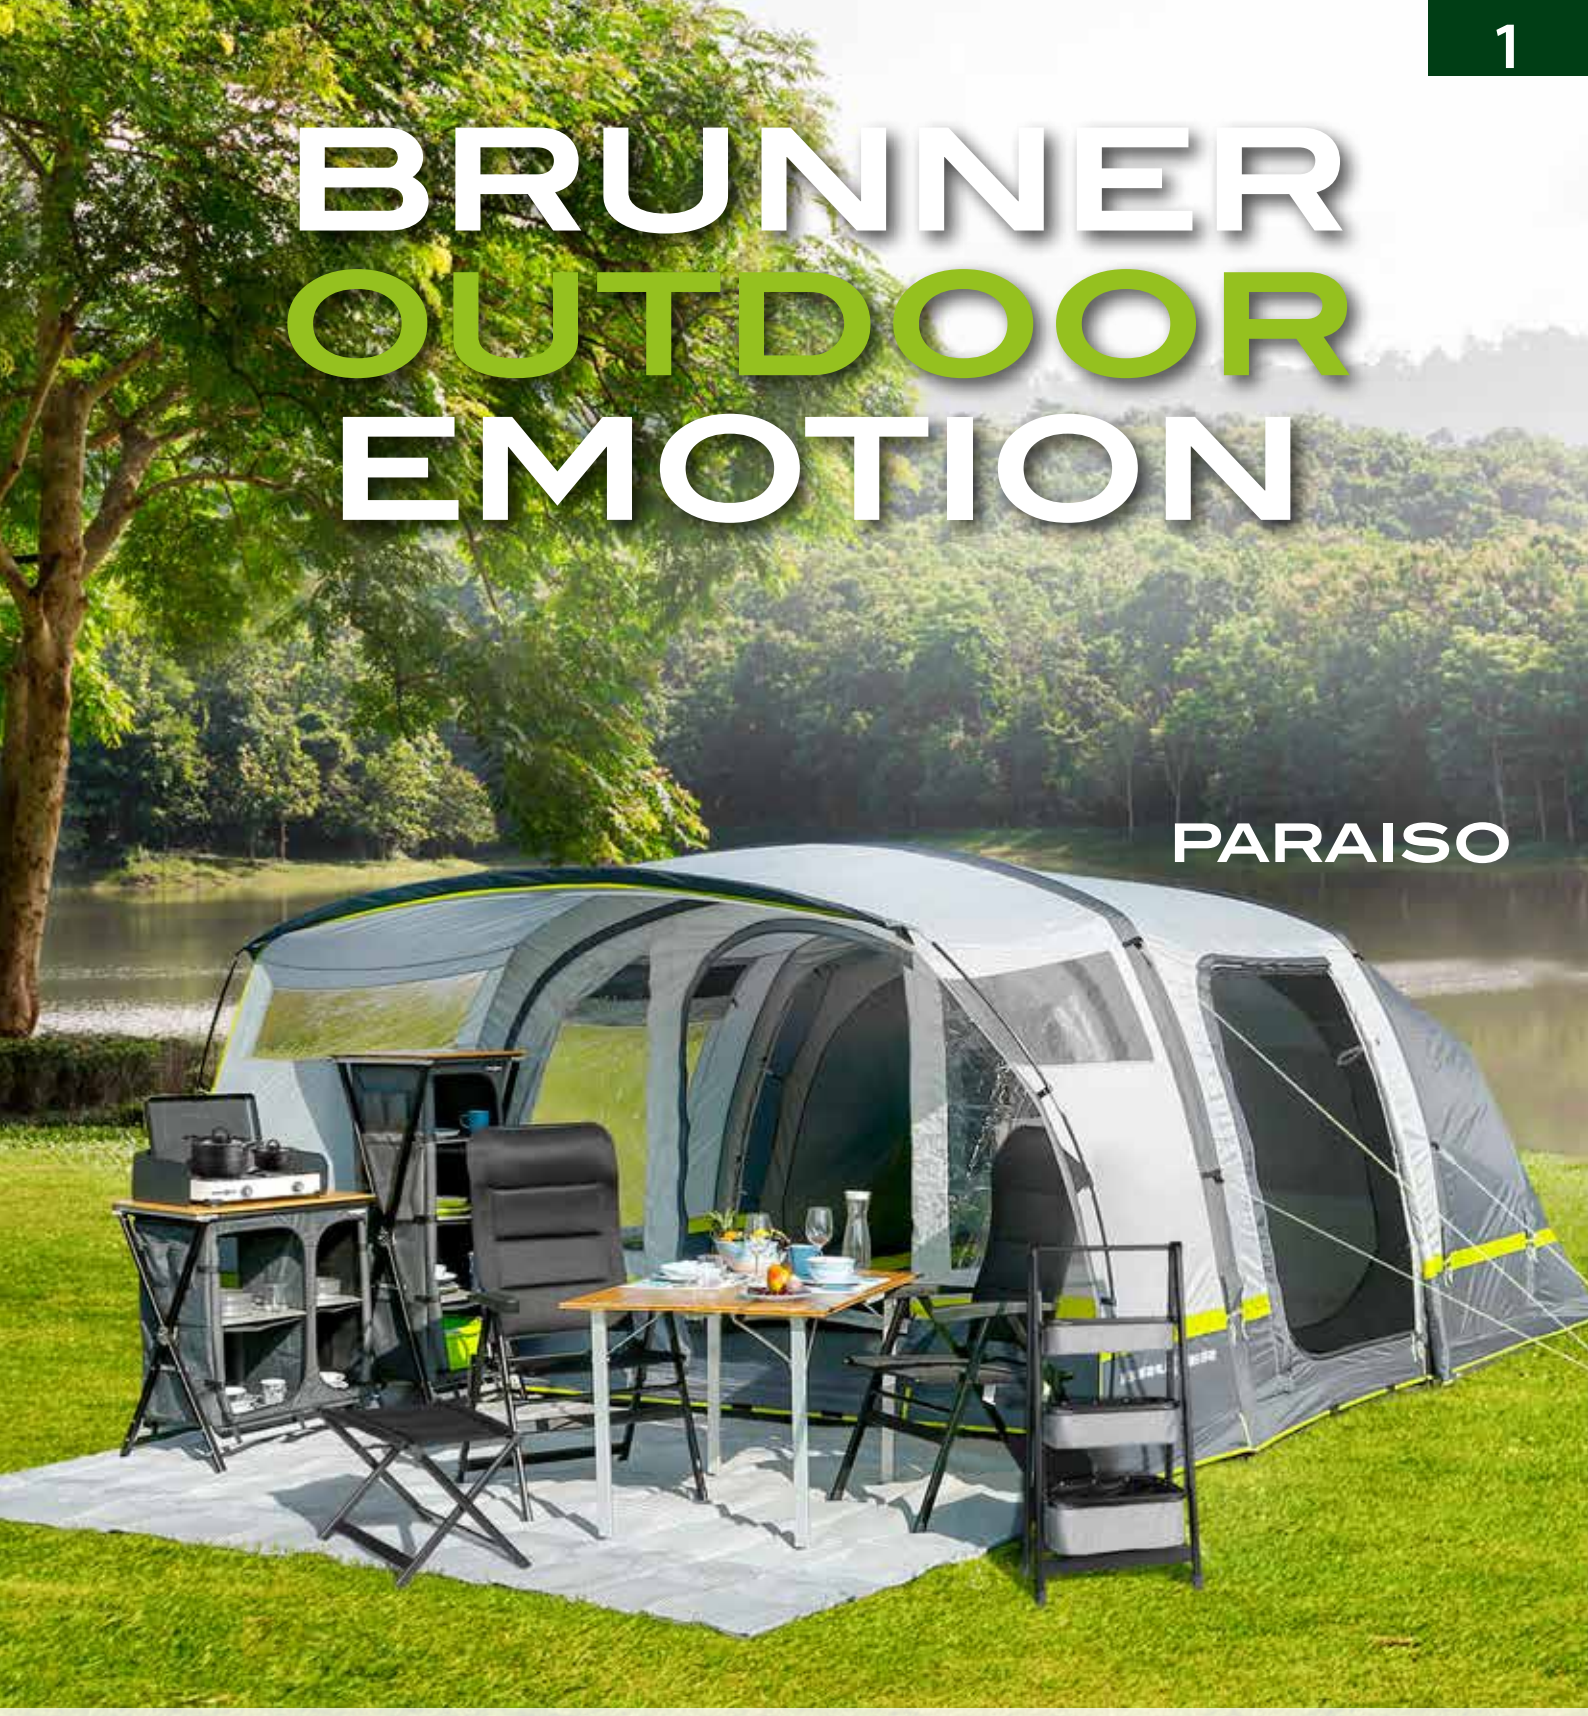
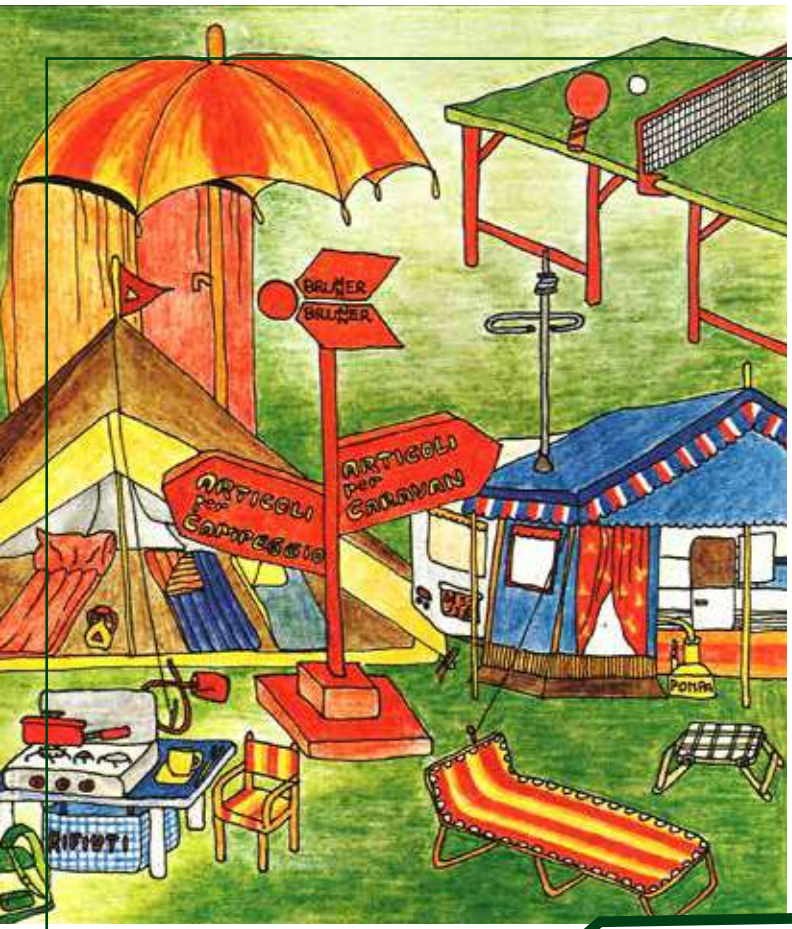
BRUNNER OUTDOOR EMOTION



Three special words that have a different meaning to each person reading them. Inspired by the needs of people on the move we´ve spent decades inventing, re-inventing and optimizing useful equipment for all those who like to spend their leisure time indulging in outdoor activities of all kinds.
This has resulted in a high quality range of products built to fit your needs and ensure satisfaction regardless of place, climate and weather.
It´s all about combining design and function creating products that make the everyday outdoor life an overall exciting experience.

HISTORY

STEP BY STEP



THE BRUNNER RANGE

The Brunner range has followed an evolutionary path, adapting to fashion and trends, aiming to guarantee the comfort and safety of outdoor products.

1960

Foundation year
Distribution of toys for outdoors

2022

1965
Distribution of winter products starts

1970
Distribution of caravan accessories

1975
First partecipation at the Caravan Europa exhibition

1980
Holiday Post starts activity

1985
Distribution of outdoor products

1990
Production of Brunner products starts

1995
First partecipation at the Caravan Salon

2000
Distribution in 25 countries

2005
Production of outdoor furniture starts starts

2010
Hong Kong office starts activity

2015
The OPS project starts

2020

INNOVATION

New 2022

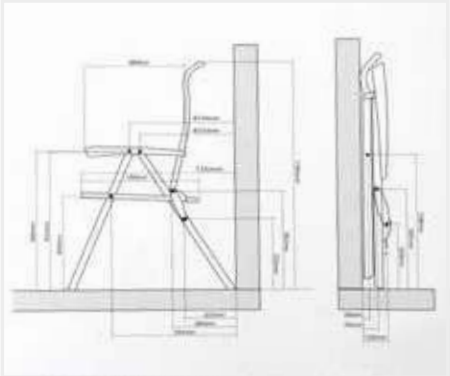
NEW OR INNOVATIVE?

Innovation inspires and stimulates the search for the New.
The New that supports man in his very own nature to make life easier, more comfortable and safer. Innovation is the driving force that motivates and inspires this search, filling it with content and cleverness.
The purchase of new equipment always represents an important decision where the factors function, design quality, workmanship and the price / performance ratio must melt together into an ideal mix. This year the Brunner Outdoor Catalogue 2021 again includes a variety of new developments from various product areas. A variety, just waiting to be discovered, used and tastefully combined.
Just browse through it or use the convenient online catalogue in order to find exactly the right product with the right price option.

ORIGINAL DESIGN & ENGINEERING

originaldesign

Our functional style is marked by the joy of beautiful design, over 61 years of experience in development and production and a sixth sense for the expectations of campers from all over Europe.
Our product managers are busy every day developing and implementing designs that cater for the needs of the outdoor and camping life. They base their work on valuable information and practical advice that we continuosly receive from experienced customers.
And exactly this really unique possibility of a direct implementation of innovative impulses is the most stimulating part of the design work - a job that allows to create requirement-meeting outdoor products for the future.



OUR PATENTS

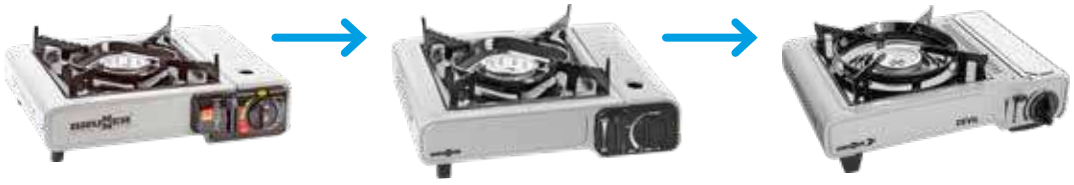
PATENTED

OUR PATENTS

Patents testify the inventive talents and the innovating passion of a company. They are undoubtedly useful to improve the performance of products. Several of our products, such as the folding table Titanium NG set new functional standards and provide a maximum of convenience and user comfort to the camper. In order to protect our experience and knowledge we are working to patent a growing number of products in several countries of Europe, Asia and USA.

IMPROVED

The continuous development and improvement of our products will make your outdoor experience safer and more enjoyable.



SAFETY FIRST

AIR SECURITY SYSTEM

SECURE HANDLING

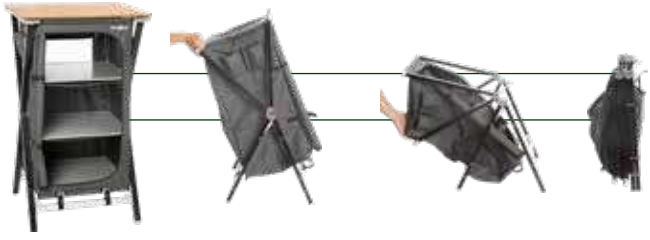
The security of the final consumer is a fundamental element of our product policy.

Some examples:
- Adherence to the Reach regulations
- Adherence to the CE regulations
- Refractory materials
- Use of safe mechanical systems
- Testing laboratories TÜV/GS

MOUNTLESS

‹M› mountless

Enjoy quick trouble-free setup of your Outdoor gear with our outstanding MOUNTLESS systems.



ONEFLATE

‹O› oneflate

A.I.R.Tech tents and gazebos featuring the ONEFLATE Technology have interlinked air beams that can be inflated through a single air input valve.

AEROCAMPIN

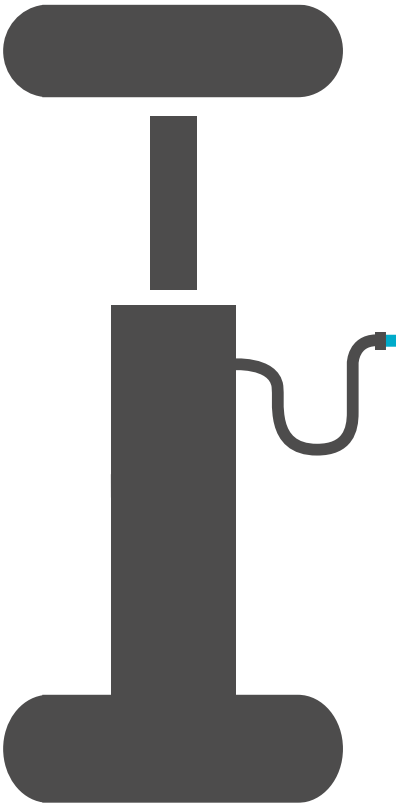
oneflate

THE BRAND-NEW AEROCAMPIN TENT COLLECTION BRINGS PLENTY OF COMFORT AND INNOVATION TO CAMPING&OUTDOOR.

To date the first Brunner tent collection that has combined so much functionality and comfort to enhance the camping experience. Whether you are planning a perfect tent for a summer vacation with the family or an adventurous weekend on the road, all Aerocampin tents and awnings will meet your requirements in every way. All models in this collection are easy to set up, reliable in all conditions and designed for ease of use.
This range is well designed in a modern way, well thought out and thoroughly equipped with high quality materials.

- Pure Pro AUTHENTIC breathable polycotton fabric
- CREANOX sleeping cabins
- ONEFLATE inflating system
- PU airbeams
- 5 years warranty on all structural air beams



QUICK MOUNTING

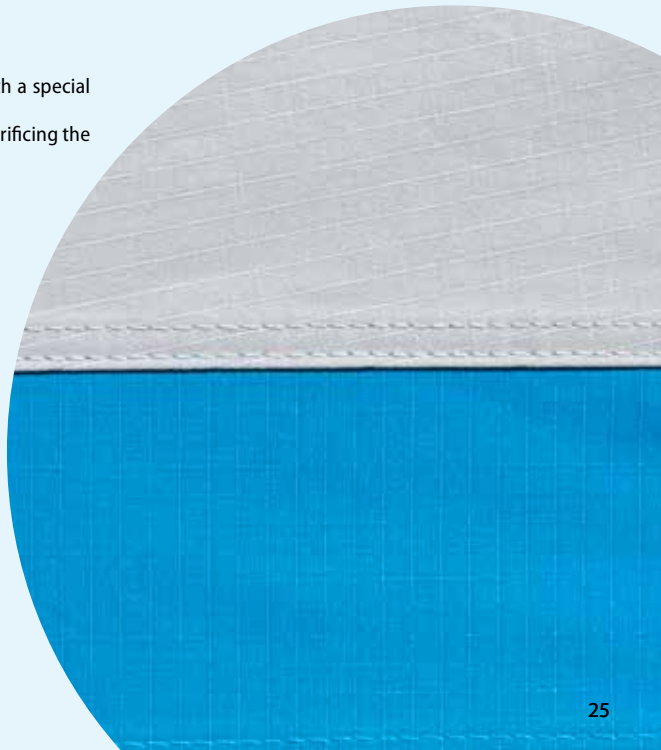
INNOVATION FOR A COMFORTABLE FUTURE

INFO

All Brunner tent and awning models with the additional designation PurePro are manufactured with a special fabric with outstanding outdoor properties.
This is an uncoated material which seals itself naturally with a cotton content of 40%, but without sacrificing the positive properties of polyester fabric (content 60%).

This results in the following advantages:
- Breathable, thus noticeable improvement of the inner tent climate
- Significant reduction of condensation water formation
- Significantly more UV-resistant than comparable polyester tents
- Longer service life

Pure-Pro



AIR TRAVEL

Freestanding drive-away awning with modern design and innovative A.I.R.Tech air frame featuring the Oneflate inflation system for quick and easy pitching. Made entirely from the high quality Pure Pro cotton/polyester blend fabric. The outward sloping, fully closable front wall forms a practical sun canopy that covers the large sheltered porch area. A side entrance integrated into the left side wall provides convenient access to the vehicle and also additional ventilation on hot days.

Features:
• Highly stable, free-standing A.I.R.Tech air frame
• Oneflate inflation system (single-chamber air hose system)
• Large front entrance, can be raised as a sun canopy
• Side entrance on the left side of the tent
• Rear wall closable with zip
• Large side windows with mosquito net and clear closing film
• Large living area with overhanging porch roof
• Complete with removable groundsheet
• Numerous guy points
• Efficient ventilation
• Simple, quick assembly
• High-quality air pump with pressure relief valve included
Supplied with: pegs, guy ropes and large packing bag
Connection options to the vehicle:
- With double piping
- With connection pole
- Roof rails

oneflate

Free-standing drive-away awning with great design and high-quality A.I.R.Tech air frame with Oneflate inflation system. Made entirely of Pure Pro fabric. The large windows ensure optimum ventilation and a great amount of light. 2 mounting heights are available.

Features:
• Highly stable, free-standing A.I.R.Tech air frame
• Oneflate inflation system (single-chamber air hose system)
• Large front entrance
• Rear wall closable with zip
• Large side window with clear film, can be darkened
• Complete with groundsheet
• Numerous guy points
• Efficient ventilation
• Simple, quick assembly
• High-quality air pump with pressure relief valve included
• Cable entrance
Supplied with: pegs, guy ropes and large carry bag
Connection options to the vehicle:
- With double piping
- With connection pole
- Roof rails

RHOMBUS VAN

Beautiful drive-away awning for minibuses and vans. Ready to use in minutes thanks to its solid air frame. Made entirely of highly UV-resistant Pure Pro abric. The (optional) side walls provide a large living space protected from wind, weather and prying eyes.

Features:
- Highly stable A.I.R.Tech air frame
- Oneflate inflation system (single-chamber air hose system)
- Numerous guy points
- Quick and easy assembly
- Includes high quality air pump with safety valve

Supplied with: pegs, guy ropes and large carry bag
Connection options to the vehicle:
- With double piping

oneflate Pure-Pro Double Connection 5/7

SKIA sunroofs are the natural development of A.I.R.Tech technology and allow you to complete the fitting, inflation and anchoring in just a few minutes and in absolute comfort. At the same time, the need to use traditional metal or fibreglass poles is eliminated. By using the (optionally available) side walls, it is also possible to obtain a large living space protected from wind, weather and indiscreet glances.
The SKIA is very easy to assemble thanks to its pneumatic structure consisting of a front support pole and a roof stabilisation pole. It is connected to the vehicle by means of a pre-stitched awning pipe. With a modern and attractive design, this awning is manufactured from the special Pure Pro fabric, a PU-coated polycotton that guarantees excellent UV resistance, excellent breathability and a long service life. All seams are taped to ensure a waterproof interior.
The delivery includes a pump for inflating the structure, mounting accessories (pegs and tensioning ropes) and a practical transport bag. Available in various sizes and connection heights.

Features:
- Quick and easy to erect
- With central roof airbeam
- Connection with awning pipe
- Includes air pump, bag and setup accessories

Pure-Pro

Double Connection 5/7

Innovation without compromise. The new Aerolight recreational vehicle awning line features the latest A.I.R.Tech technology for pneumatic structures that offers great strength and stability as well as the advantage of the Oneflate system that allows the entire structure to be inflated by means of a single valve. Another innovative element is the use of the special Pure Pro Authentic fabric, a high-quality polycotton that guarantees excellent UV resistance, excellent breathability and a long service life.
In addition, thanks to the vertically inclined walls, the Aerolight Authentic awnings offer great spaciousness and plenty of height.

Features:
- Oneflate inflation system (single chamber air tube system).
- Quick and easy assembly with piping
- 2/3 fold-down front wall elements with foil window/mosquito net and darkening flap. All elements removable.
- On both sides a foil window with mosquito net insert and darkening flap, as well as a round arch entrance door.
- Strap tensioning as standard
- Windshield included
- Pump with pressure relief valve and mounting material included

Connection options to the vehicle:
- With double piping 5/7mm

TOSCANA

Newly developed full awning with stable air frame and slightly rounded roof shape for particularly good weather resistance. The modern design and the matching colour combination make the Toscana a real eye-catcher. The simple, unproblematic handling without poles also makes the heart of every camper beat faster during set-up. The high-quality design in all areas with extensive standard equipment guarantees 100% camping comfort.

Features:
- Oneflate inflation system (single-chamber air hose system)
- Two-piece front wall, can be zipped off the roof or opened as a veranda
- Upper mosquito net with closable cover
- Storm bar under all windows
- Extra strong zippers
- Integrated storm band support
- Air pump with pressure relief valve and mounting accessories included

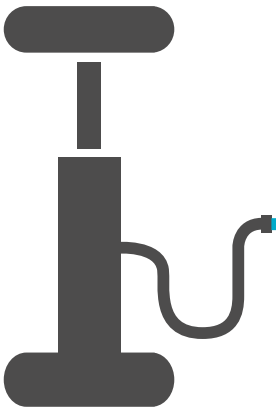
air inflation raising

INNOVATION FOR A COMFORTABLE FUTURE

The key challenge of the past years has been finding materials allowing us the construction of revolutionary high pressure Airframes capable of replacing traditional metal or fibreglass poles. The main objective was to take the struggle out of tent setups and providing a high level of simplicity to the modern tent user.

The idea behind this system is simple and at the same time clever: Replacing the traditional metal or fibreglass poles with an inflatable Airframe keeping the substantial features of strenght and stability. The inflating process is astoundingly quick and easy. The supplied double action pump is safe and comfortable to operate and also features a special pressure valve that prevents from overinflating the single airpoles.



QUICK MOUNTING

Overview of advantages

- Easy&quick setup
- Easy&quick take down
- Airframe and flysheet are always connected
- Less mounting parts
- No parts or elements with sharp edges
- No breaking or bending poles
- Lighter than tents with traditional metal or hybrid frames
- Excellent workmanship
- Modern design

CREANOX Info p. 41

INFO

Authentic Collection Polycotton

THE ADVANTAGES OF POLYCOTTON TENTS

One of the main benefits of polycotton tents is the increased breathability and ability to adjust to different conditions of the surrounding environment.
This simply means that when the weather is warm, the inside of the tent will stay as cooler if compared to polyester tents. On the contrary, with cooler temperatures, your tent will be warmer.
Breathability also means that polycotton prevents and reduces the formation of condensation allowing the moisture to transfer through to the fabric, eliminating the unpleasant feeling of humidity and providing well-being and comfort.
Using polycotton fabric is also an investment in the longevity of the tent. Polycotton offers a much higher resistance to UV-light than polyester and deterioration due to effects of aging its strongly reduced.
All in all, polycotton fabrics guarantee excellent functionality, breathability and longevity - an entirely technology-mix for a product that will give you lasting pleasure.

The Pure 4 A.I.R. Tech Authentic is an outstanding tent model for families looking for lots of living space. The breathable Polycotton fabric keeps the inside considerably cooler on hot summers days, especially when spending holidays in hotter climates. The big front awning section guarantees ample space for cooking and dining equipment.

INFO

AIRFRAME DAMAGE WHAT TO DO!

All the elements of the Airframe (airpoles, valves, etc.) are made from high quality materials and failure is highly unlikely during normal use. In the remote case of an external damage of the airframe the problem is quickly solved since every single airpole can be easily removed and replaced (please refer to setup instructions).

Outdoor Family

THE CLASSIC FAMILY TENT

A tent becomes the home of the family during the camping holiday. So there is no question that it must also fit the family.
While couples with one child do not need too much space, families with three children or those travelling with their grandparents need enough space to sleep comfortably, storage space for equipment and luggage, a lounge for playing in bad weather and space for a dining table with chairs. Family tents are generally larger tents that are designed for longer standing times and more people and offer more comfort than a pure "overnight tent". The entrances with standing height and the large panoramic windows are a clear characteristic. The interior of family tents is divided into a sleeping area and a living area. The latter is usually so large that you can sit together inside the tent at the camping table while the food is being prepared and the children have their rest in the sleeping cabins. There is plenty of room for all the home accessories that play an important role in the success of a pleasant holiday.
In the following pages we present a variety of models that meet the different requirements such as number of persons, weight, dimensions, height, packing size, ventilation, etc.
There should be something suitable for every need.
So: Read it carefully, order it from your dealer and the fun camping holiday can begin!

TIPS FOR THE CORRECT USE OF YOUR TENT

Before leaving for holidays always make a test mounting of your tent. This way you will be at destination, will already know what to do and will have already checked that everything is OK.
Never exceed with the tension of the stabilizing cords. In case of strong wind change the standard pegs with special storm pegs.
On hard or rocky grounds the use special pegs is recommended.
Depending on the weather conditions condensation could appear inside the tent: in order to avoid this natural process it is recommended not to hang wet clothes in the inner tent, to increase the ventilation and to use a protective groundsheet.
Clean your tent before storage, eliminating the dirt by using a soft water wet sponge. Do not wash the tent wit a washing machine or with chemical products.
Always check that the tent is dry before you store it in order to avoid bad smells or mould.
Finally it is still recommended to have a reparation kit including spare poles and rubberbands, adhesive patches, storm cords and some spare pegs.

DRIVE-AWAY AWNINGS

Traveling in a minibus means freedom and flexibility, but requires a certain amount of self-sufficiency and the ability to quickly set up a mobile camp.
Whether you prefer to take a short weekend trip with friends or pamper your family with a relaxing week on holiday, our collection of air-framed awnings are the ideal solution if you want a little more comfort, space and a simple, trouble-free setup. Pure holiday feeling without stress and anger.
The Brunner bus awning collection will continue to grow and be extended by numerous exciting new models.
The efforts for optimal function, high quality and further development of the comfort level remain unchanged:

- The creation of additional living, sleeping and storage space.
- Alternative use as a cooking area to keep annoying odours out of the vehicle interior
- The possibility to reserve your favourite pitch even when you are absent

Brunner A.I.R.Tech air tents are available for different mounting heights.

ADVANTOURER

The Advantourer is the ideal tent for your van. Due to its polycotton flysheet it performs much better in terms of breathability and UV-resistance than traditional polyester driveway awnings.

Features:
- Quick set up A.I.R. Tech freestanding, frame
- Sewn in groundsheet
- Connecting tunnel with side door
- Sheltered front porch with side panels for protection from sun and rain
- Living area with large mesh windows (with blinds)
- Wide, fully mesh front door for flexible opening – completely, half, or less
- Big side entrance

DRIVE-AWAY AWNINGS

Drive-away awnings represent a particularly useful piece of equipment for campervan users. Their main objective is to provide an extra room alongside your vehicle. In summary they can:

- Provide additional living space
- Provide additional storage space
- Be your cooking area and keep disturbing smell out of the vehicle
- Be the favorite place for your dog or cat
- Reserve your camping pitch while you are away
- Provide shelter and protection from sun, rain and wind

All Brunner drive-away awnings are free-standing and can be attached to the rain gutter or awning rail.

CARAVAN awning a.i.r. tech
air inflation raising

LIGHTWEIGHT AWNINGS FOR CARAVANS

Awnings greatly improve the living conditions in a caravan. Buying a caravan awning simply means investing in extra living space. But! Choosing the right caravan awning can be quite difficult since the market offers a big choice of different styles and models. Lightweight awnings have appeared on the market only recently but they constitute a valid alternative to traditional framed awnings if some important conditions are observed:

- Lightweight awnings perfectly fit the needs of travelling caravaners
- Lightweight awnings are ideal for short breaks or weekend stays
- Leightweight awnings don´t like stormy weather
- Lightweight awnings are not suitable for permanent pitching

By observing these simple principles you will be able to enjoy your lightweight awning for many years to come.

Kitchen Tent

THE ADVANTAGES OF A KITCHEN TENT

Kitchen tents primarily have the function of a mobile kitchen. They also offer numerous additional advantages that make camping easier and are especially appreciated by families:

- More space and freedom of movement in the awning
- No unpleasant cooking odours in the awning
- Very good ventilation
- Comfortable stand height
- Can also be used as equipment tent (we recommend with tent floor)
- Perfect for safely storing bicycles, motorcycles, grills or children's toys
- Some models available with integrated or integrable tent floor (see product description)

Those who appreciate order and organisation are always well advised to use a kitchen tent or equipment tent. Our range includes a variety of models and sizes designed for different applications. Please read the corresponding product descriptions carefully to select the most suitable model for you.

UPF 50+

SUN PROTECTION

Gear up for fun in the sun and keep yourself safe from the sun´s harmful UV rays. Whether you are enjoying a sunny day in the garden, by the swimming pool or on the beach, Brunner sun protection products are the right accessories to use. They are designed to be lightweight and highly portable and mostly feature a UPF of 50+ ideal to keep you cool and well protected. Brunner stands for functional design and creative innovation. All products are developed with love for a life spent outdoors. Our goal in all product areas is to offer quality equipment combining the best of convenience, function and design to provide effective protection from sun, wind and rain.

THE UV PROTECTION FACTOR

The Ultraviolet Protection Factor scale measures the level of UV protection provided by fabrics. There are many similarities with the sunscreen rating system (SPF). Outdoor fabrics a UV Protection Factor of 50 only allows 1/50th of the UV radiation to pass through it. That means it blocks 98% of the UV radiation.

ZEBÒ COLLECTION

ENJOY

Zebò folding gazebos as leisure tents, camping tents, event tents and sales tents.

For more than 20 years now, we have been offering high-quality folding pavilions for a wide variety of applications in our product range. During this time, our experienced product development team has always striven for improvement in the areas of materials and production. All materials are carefully selected and tested under real-life conditions to meet the customer's expectations and guarantee the desired reliability and durability.

Zebò folding pavilions are popular in the leisure and camping sector, but are also well-suited for events, presentations or parties. They are quick and easy to assemble and dismantle, and can also be compactly stowed and conveniently transported.

Important: All components are screwed together for easy servicing and can therefore be easily replaced.

The Zebò folding pavilion collection includes the following models:

- Zebò Enjoy 2.0 - Robust folding pavilions with a powder-coated steel frame (rectangular profile 40x40 mm). Available in 3 sizes.

- Zebò Enjoy PRO - Pro folding made of high-quality aluminium, with hexagonal 50 mm profile system. Available in 3 sizes.

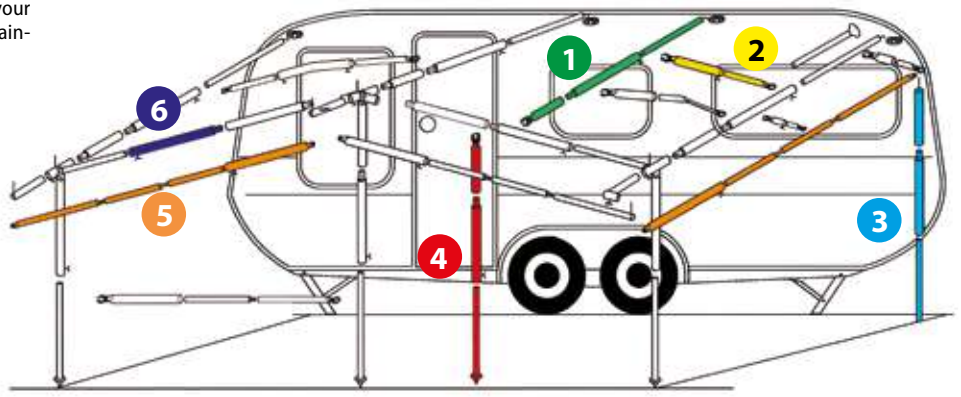
Drive away kit. Connects your awning to the vehicle.

SMARTPOLE

Additional poles are extremely important to give your awning even more stability in case of strong wind, rainfall or snowfall. Our poles are available in 2 versions.

made in EU



Steel: used for permanent or winter awnings because of its rigidity. All Brunner steel poles received a double protection process (galvanizing and varnishing).

Aluminium: ideal material for light travel tent or sunroofs. Features: lightweight, almost free from corrosion. All Brunner aluminium poles feature an anodized surface.

SLEEPING BAG

The sleeping bag is a most important piece of equipment for any outdoor experience. Only those who sleep well can recover overnight and tackle the next day. The function of a sleeping bag is relatively simple: Maintaining the body's warmth and creating a pleasant and sweat-free sleeping climate. Sleeping bags with synthetic fiber filling absorb only small amounts of moisture. They are therefore well suited for use in countries or regions with high relative humidity or with high rainfall probability. In addition, they are generally available at a lower price. Down sleeping bags, on the other hand, are somewhat more difficult with high humidity. The down filling is threatening to become lumpy and thus lose its loft and its outstanding insulation properties. However, down sleeping bags stand out due to their low weight, the compact packing size and the long life (when used and stored correctly).

FOLDAWAY
100% SILICONE

Folding housewares are a space-saving alternative to traditional bowls, buckets and basins and should not be missing in any of the modern camper equipment. They are very easy to fold, versatile and, especially when space is limited, ideal for stowage.
To use it, simply apply a small amount of pressure to the bottom. All Brunner-FoldAway products can be folded up just as easily after use.

CHAIR COLLECTION

FOLDING OUTDOOR CHAIRS

Our chair range includes a variety of models that have different functions depending on size, weight, pack size or comfort. When choosing a table chair, you should consider a vertical backrest, while a pure outdoor chair must be lightweight with a small pack size. On the other hand a relaxing chairs must have a wider seat and a comfortably reclinable backrest. To facilitate the selection of the right chair, you will find an overview that shows all the important features of Brunner chair models and their ideal use.

INFO

3DURAFEEL PRO

REBEL

UV resistent

3Durafeel Pro

The 3Durafeel Pro cover fabric is a very special fabric used in our Rebel chair collections. Thanks to its air permeability and skin-friendliness, it transforms comfort into a wonderful seating experience for relaxing hours outdoors. 3Durafeel Pro also dries amazingly quickly after a light rain and radiates a pleasant feel-good atmosphere on the awning, terrace or balcony. And this reliably for many years.
This is because 3Durafeel Pro is tear and abrasion resistant, breathable, lightfast and dirt repellent. Single-layer construction (special weave).

CHAIR 4 ALL

ERGONOMIC CONCEPT

S (Max 170 cm) **M (170 - 190 cm)** **L (Over 190 cm)**

WHICH CHAIR SIZE DO YOU NEED?

Do you sit comfortably? The chair size always plays an important role!
Many of us spend many hours in a sitting position during the day. Whether at work, at home at the dining table or while relaxing: We should take care to sit comfortably, to avoid tension and to increase our well-being.
Basically, you cannot make a general statement about the right seating position.
The body size, the body proportions and also the table height play a big role.
So there are many reasons that make you think about the right chair size. Not only the comfort, the mechanics and the attractive design of your outdoor and camping chair, but also an ergonomic posture should be an important selection criterion.
Thanks to the newly developed sizes, the Aravel / Rebel Pro chair collection certainly offers the right chair for your body size. Very important: The right seat height affects the well-being positive!
Take care that your feet are comfortably resting on the floor and the forearms form a right angle with the upper arm. So the right chair not only has to please, but also really has to be the right thing for you and your body measurements.

120Kg

Comfortable 4 leg high back chair with brand new space saving frame that is the perfect solution for those who do not have ample storage space in their vehicle. Thanks to special joints specially made, it was possible to fold both the rear leg of the chair and the headrest, thus considerably reducing the height of the chair in the closed position. All this while maintaining the characteristics of comfort and elegance typical of all models of the Rebel collection.

Features:

- Frame in special trapezoidal profile in painted aluminum
- 3Durafeel Pro fabric seat and backrest
- Foldable headrest
- Folding rear leg
- Adjustable backrest (5 positions)
- Steel central joint
- High-quality plastic armrests with metal rails
- Ergonomic backrest with integrated lumbar support
- Integrated organizer pocket in the back of the backrest
- Compatible with Rebel series footrests

INFO

THE COT

Cots allow comfortable sleeping in a safe distance from the ground. Especially in bad weather conditions, you are well protected from moisture and humidity. Moreover, you can successfully avoid to get in contact withquite annoying crawling insects. Different cot models offer the possibility to store equipment under thelying surface in order to save space. As it happens with any other piece of equipment, also cots needs to be evaluated in many respects. Each of the models in our catalogue offers advantages and disadvantages. Above all, you should consider how the cot will be transported: Some can be dsmounted into a very small storage space, others are only foldable, therefore having a larger pack size but usually offering a better sleeping comfort.

OUTDOOR COT AUTOMATIC

TABLE COLLECTION

CHOOSE THE RIGHT TABLE!

A table is really just a shelf with four legs: This is the first thought that comes to mind when people have not yet taken a serious look at outdoor tables.
But especially when it comes to tables that are used outdoors, a table is by no means just a table. Numerous differences have to be considered in detail from the point of view of the optimal purpose, the place of use, the assembly system and the packing dimensions.
This automatically raises the question: Which outdoor tables are actually available?
Classic camping and outdoor tables with fixed or folding tops
Ultra-light camping and outdoor tables with fixed or folding shelf
Foldable camping and outdoor tables with rollable tray

Now find the table that suits you best from our wide range of models with different functions, assembly systems, packing dimensions, colours and shapes. Adapted to the basic rules explained above, to your special needs and to your preferred style, it is important to take into account the ambience and the given space conditions when choosing a table.

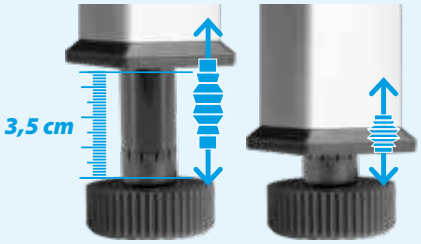
INFO

Adjustar is a patented levelling system which allows a very simple height adjustment of support legs by means of a new mechanical method of power transmission.
Thanks to this system, furniture systems with feet can be prevented being crooked. Every camper knows this problem. How laborious and tedious it is to adjust the legs of tables that have to be moved up, down and over frequently, especially on uneven ground. But Adjustar can also be used on even ground. Especially in outdoor areas, small puddles form on the table tops, which in combination with impurities such as pollen, for example, result in unsightly edges. Thanks to the Adjustar system, it is also possible to simply tilt the tables and let the water drain off.

ADJUSTAR LEVELLING SYSTEM



PATENTED

4X

SILVER GAPLESS

ROLLABLE TABLE TOP

Aluminum folding table with rollable table top. Thanks to the integrated bubble level, an absolutely horizontal positioning of the table top can be achieved even on uneven ground (Level System). Stable frame with height-adjustable leg. A carry bag for comfortable transport is included.

- 4,90 kg

Very stable ultra-lightweight table with centrally folding tabletop and functional aluminium frame. The special construction allows the height-adjustable and space-saving structure to be folded easily to the underside of the table and also increases the legroom on all 4 sides. The multi-layered and weatherproof tabletop has a special honeycomb construction without a running edge all around to allow water to run off. Folds and stows away very compactly. With carrying handle.

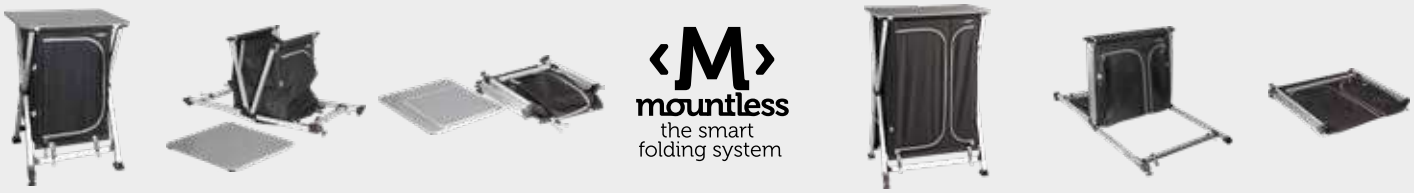
AZABACHE HSC CROSS SQUARE

Art. 0422090N.C03 € 199,90

- 70 x 59 x H125 cm
- 72 x 17 x 92 cm
- 8 kg



Large multifunctional camping cabinet with 2 separate zip compartments with 6 internal shelves. The slightly narrower compartment can also be converted into a wardrobe thanks to the dividable shelves and a built-in hanging bar. Very sturdy design with aluminium cross frame and torsion-resistant rectangular profiles. Front and rear walls can be additionally stabilised by a special tensioning device. Wide base plates prevent the cabinet from sinking into soft ground or damaging the tent floor or carpet. A height-adjustable foot allows a perfect level compensation on uneven ground. A gauze window in the rear wall provides internal ventilation for the cabinet.

Features:
- Frame: Aluminium
- Cover: 100% coated polyester fabric
- With bag

HEAT RESISTANT

BPA free

Resylin is a colorless ABS-based thermoplastic (acrylonitrile butadiene styrene), that combines good mechanical properties with a good chemical resistance.

Advantages:
- 100% BPA-free, food safe
- Excellent insulation properties
- Recyclable
- Resistant to corrosion and abrasion
- Usable up to 90° C (short-term 100° C)
- Impact resistant (also in the cold)
- Freezer safe

INFO

STONEtouch®

Newly developed melamine/mineral mixture with excellent functional properties:
- Hard surface
- Dimensionally stable
- Shines like porcelain
- Porcelain touch
- Food safe
- Hygienic, easy to clean
- Taste and odour-free
- Deep freezable
- Dishwasher safe
- Break-resistant
- Long-lasting

TABLETOP & ENTERTAINING

BRUNNER MELAMINE: 100% BPA-FREE

All items are produced with high quality melamine, a compound obtained by the combination of melamine resins and cellulose that represents the peculiarity of this special material being rigid and at the same time lightweight.

Specific features:
- Resistant to heat and humidity
- Taste and odourless
- Food proof
- Very hard surface
- Impact resistant
- Easy to clean
- Suitable for freezer
- Machine washable
- Environment friendly due to its durability

85°C max

Freezer

Tritan plastic is an equivalent alternative to the widely used polycarbonate. Tritan was developed specifically as a BPA-free alternative to polycarbonate, known to contain smaller amounts of BPA. Perfectly suitable for the production of unbreakable plastic drinking glasses that look exactly like glass, plastic tumblers, wine glasses or elegant stemware.

Tritan special features

- Tritan products are clear, durable and safe
- Tritan doesn't contain BPA, BPS or any other bisphenols
- Tritan has much greater shatter resistance than other plastics and glass
- Tritan won't dent or ding
- Tritan plastic features a glass-like look and feel
- Tritan won't get hazy or cloudy after washing
- Tritan can be shaped as desired (in production)
- Tritan is lighter than glass
- Tritan is safe for children
- Tritan can withstand temperatures of up to 85°C

- 2 kg

DOUBLE FLAME

Portable gas cartridge cooker with flame adjustment knob, integrated piezo ignition and flame safety thermocouple. The pan support plate and cartridge cover are made of durable, easy-care stainless steel. Optimum power delivery by means of a special dual-flame burner.

Features:

- Painted metal housing with stainless steel pan support plate and cartridge compartment cover
- Individual flame adjustment
- With flame safety thermocouple
- Integrated piezo ignition
- Complete with sturdy plastic transport case

COOKING WITH GAS

Outdoor cooking with gas is generally easy, uncomplicated and clean. But some important things should not be forgotten:

- Gas cartridges are not allowed on airplanes
- Check before your trip if appropriate cartridges are available at destination
- With rising height above sea level the efficiency of gas powered devices decreases
- Too cold temperatures (below zero) reduce the efficiency of gas-powered devices
- Always use a windscreen
- Whenever possible, use a pot lid for cooking and prevent heat from escaping

MY CAMPER MY HOME

On the following pages we present practical innovations and products for your camper household. We make sure that you feel just as comfortable in your mobile home as you do at home and that you do not have to do without anything.

This results in a multitude of questions:
- What is the best way to wash my dishes?
- How to avoid annoying odours inside the vehicle?
- What solutions are available to store plates and glasses safely?

And much more, to which we try to give an answer with innovative product suggestions - with the clear goal of making an active contribution to make the holiday household as pleasant as possible.

FOLDAWAY

Folding dish drainer with cutlery holder. Made from sturdy plastic material.

FOLDAWAY

Folding housewares are a space-saving alternative to traditional bowls, buckets and basins and should not be missing in any of the modern camper equipment. They are very easy to fold, versatile and, especially when space is limited, ideal for stowage. To use it, simply apply a small amount of pressure to the bottom. All Brunner-FoldAway products can be folded up just as easily after use.

General product features:
- Material: PP/TPU plastic with dimensional stability
- Lightweight
- Space-saving stowage
- Easy to clean
- Durable
- Safe to use

POLARYS HYBRID 42

Art. 0826041N € 359,00

COOL UP -20°C
Below ambient temperature
12V DC

+10°C to -15°C
Temperature range
230V AC

The Polarys Hybrid Cooler is the perfect companion to keep food and drinks cool while on the go and/or after arriving at destination. Featuring 2 separate cooling systems: a compressor running on 230V AC and a thermo-electric cooling system running on 12V DC. The combination of these 2 systems results in a perfect cooling machine that covers a tempertaure range from +10°C down to -15°C. Easy to transport thanks to recessed handles integrated into the cooler body. The robust and well insulated body has a capacity of 42 litres allowing enough space for plenty of food and drinks.

Features:
- Cooling Systems: compressor & thermoelectric
- Temperature range AC: +10°C to -15°C
- Temperature range DC: 20°C below ambient temperature

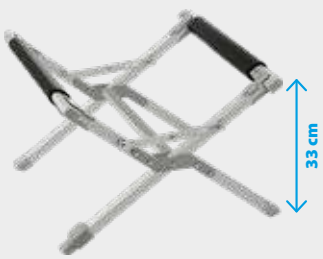
OPTIONAL

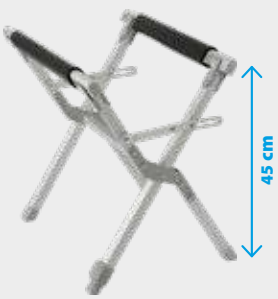
COOLER UP

Art. 0406047N € 39,50

- 45 x 50 x H33/45 cm
- 63 x Ø 12 cm
- 1,5 kg

Comfortable, folding cooler rack. 2 different height positions can be fixed. Complete with transport bag.





POLARYS FREEZE

With our new Dual Zone coolers/freezers you can enjoy the summer in a relaxed way: Impressive cooling and freezing experience at the same time in one device! Two separately adjustable temperature ranges (Dual Zone) and a detachable battery (optional) make the Polarys Freeze coolers ideal companions for all outdoor activities without worrying about the power supply. In addition, the Polarys Freeze portable coolers/freezers present themselves with a whole range of attractive features and useful functions:

- Detachable battery (optional) lasting 4-24 hours
- Two inner compartments with individual temperature control
- High quality compressor for superior cooling performance
- Three stage battery protection
- DC/AC use
- Durable. Shockproof design
- LCD display with touch control
- App for adjusting temperature
- Quiet operation
- Reverse door design makes door opening more flexible
- CE/RoHs -tested
- Scope of delivery: cooling unit, 1 DC connection cable, 1 AC connection cable, operating instructions

Performance:

• Temperature settings	between +20°C to -20°C (deep freezing)
• Refrigerant type	R134a
• GWP	1430
• Quantity refrigerant	40 g
• CO2 equivalent	0,054 t
• Average energy consumption AC	(EN62552) 0,28 kWh/24h
• Energy consumption 12V DC	(ambient@32°C, indoor@5 °C) 1,29 Ah/h
• Climate class	(EN62552) T/ST/N/SN

Additional information:

• Insulation type	PU (polyurethane)
• Colour	light grey/dark grey
• USB connection	Yes
• Drain plug	Yes
• Anti-condensation coil	No
• Interior lighting	Yes

- V 8 l

8 ℓ

Portable 12V/230V compressor fridge specially designed to be used in small spaces and to be easily transported with its sturdy folding handle. Ideal for all outdoor activities, also thanks to the possibility of a mobile power supply through the use of a lithium battery (optional). Solid and robust construction with high quality materials. Equipped with the latest generation of compressor that optimises the ratio between energy consumption and cooling performance.

Features:

- Detachable battery (optional) lasting 4-24 hours
- High-quality compressor for high-level cooling performance
- Three-stage battery protection
- DC/AC use (AC with external power supply)
- Durable and shockproof design
- LCD display
- Silent operation
- Foldable carrying handle

The version 2.0 of the popular W8-Gascontrol features the following improvements and enhancements:
• Newly developed cover for weight measuring cells
• Extension of the connecting cables to the battery charging compartment
• Revised W8 app
The electronic device W8 GASCONTROL measures the fill level of gas cylinders and transmits it via Bluetooth to Smartphones or Tablets with Android or iOS technology. Due to its very low height the W8 GASCONTROL can operate continuously in the gas bottle compartment of the vast majority of recreational vehicles.

Features:
• Suitable for all gas cylinders (steel, aluminum, plastic, fiberglass) with a maximum of 30 cm diameter
• Rapid measurement of the fill level
• Indication of the residual running capacity
• Reading of the fill level and running capacity on Smartphone or Tablet
• Bluetooth technology
• Software compatible with Android and iOS systems
• App for Smartphone or Tablet included (download)
• Operation with batteries (not rechargeable)
• Casing of durable plastic material
• Simple and intuitive to use
• European product

Areas of application:
• Recreational vehicles
• Camping and picnic
• BBQ & Grill

Warning: the reading device (smartphone, tablet, etc.) is not supplied!

35,00 €/l

V 500 ml

Special detergent for surfaces in metal and synthetics, to remove pertinacious smut.

Additional fly screen with aluminium frame for the Dometic Midi Heki with crank mechanism.
Prevent the intrusion of dirt and annoying insects with the newly developed FLYNET fly screen. With the FLYNET the protection of your vehicle already starts at roof level and the annoying accumulation of flies, mosquitoes and other pests, but also leaves, tree needles, etc. on the interior fly screen and darkening blind is completely eliminated.
The FLYNET is based on a high-quality aluminium frame. This enables quick, uncomplicated and permanent attachment to the Dometic Midi Heki (with crank operation) without the need for tiresome drilling and/or screwing. The Heki frame remains completely undamaged and is visually enhanced. If you want to remove the FLYNET for cleaning or during the winter break, simply lift it out.

Features:
- Aluminium frame with low weight and high stability
- Fly screen made of weatherproof fibreglass fabric
- High-quality appearance due to modern aluminium profile with rounded edges and lateral brushes
- Assembly without drilling and screwing
- Ready for immediate use
- Suitable for the original Dometic Midi-Heki with crank operation
- Made in EU

Waterproofer	344
Wheel wedge	375
Wheeled carrier	188
Whisk and Dust pan	310
Windscreen	96,107
Wire pegs	118-121

NOTE

Warranty

All original Brunner products are manufactured from high-quality raw materials, which underlie strict material testing. Thanks to our quality controls we can detect and eliminate defects already within the production process. If in spite of that a defect should arise, the company Brunner grants a warranty of 24 months for defects in material and workmanship. The warranty starts from the date of purchase.

Note:

The warranty will be refused in the event of incorrect use, external influences or improper handling and storage. A claim can only be made with the retailer from whom the item was purchased and only with a valid receipt clearly showing the date of purchase. The reseller shall take care of the complete warranty processing and contact its upstream supplier or Brunner GmbH directly.

- Errors in colour, size, material and packaging data, as well as technical changes and printing errors excepted.
  Attention: Colour deviations from the original are possible due to printing technology.
- Decoration material is not included in the price.
- All dimensions and weights are approximate.
- All texts, images, graphics and logos in this catalogue are subject to copyright and other laws for the protection of intellectual property.
- The reproduction of information or data, such as the use of texts, parts of texts or images, requires the prior consent of Brunner Ltd.
- Date of publication of this catalogue: March 2022.

Important:

The Covid 19 pandemic, which is widespread worldwide, also confronts us with many unforeseeable challenges in terms of material procurement, production and delivery of our products.
We therefore ask for your understanding that the end-user prices listed in this catalogue may be subject to price adjustments during the year. However, current end-user prices can be viewed on our homepage www.brunner.it at any time.
